

Los Angeles Unified School District Abandons Mandatory Vaccination Due to Lawsuit

We are pleased to report that through our efforts, vaccination with the experimental COVID-19 shots, issued under Emergency Use Authorization (EUA), is no longer mandatory at the Los Angeles Unified School District (LAUSD).

On July 27, 2021, the case against LAUSD was dismissed without prejudice, as the judge concluded the district had indeed abandoned the mandatory C-19 vaccination policy, communicated

Bodily Integrity - Where is YOUR Line in the Sand?

Difficult decisions lie ahead for all Americans who value bodily autonomy and freedom and are opting out of the new experimental injections being mandated by government and private business acting as an extension of government, which will push those who choose a different path to the sidelines of society. What are we to do in the face of this extreme tyranny?

Complying is NOT the answer.

Watch Leslie Manookian of Health Freedom Defense Fund asking the hard questions; what does it look like to take a stand for what you believe in? What are you willing to do to preserve your precious bodily integrity? What can you do to protect your children and future generations? We believe Americans have what it takes, the creativity, independence, and innovation that we are known for throughout the world. Do not give up, do not give in, link arms with others and stand up for your rights. It is time to draw your line in the sand.

Health Freedom Defense Fund Helps HFDF Member Sue School District

Excerpt from The Center Square

[Court to rule on Phoenix school district mask mandate](#) by Elizabeth Troutman August 9, 2021

(The Center Square) - A Phoenix teacher filed a lawsuit against the Phoenix Union High School District (PUHSD) for requiring that students and teachers wear masks at school, arguing that state law prohibits school mask mandates.

Douglas Hester, a Metro Tech High School teacher, sued the district, its governing board, and its superintendent in Maricopa County Superior Court. He requested a temporary restraining order on PUHSD on the grounds that the district's mask policy is contrary to state law. Hester is represented by Alexander Kolodin, a member of the legal team for the Health Freedom Defense Fund (HFDF).

The FY 2022 state budget made it illegal for schools to require that students wear face-coverings or receive the vaccine to receive in-person instruction. This did not stop the Phoenix school district from requiring that students and staff keep their masks on in response to the recent uptick in COVID-19 cases. [Read more...](#)

We have more big legal actions planned in many states across the nation as well as at the federal level, and having members in all fifty states allows HFDF to bring suit on behalf of our members wherever they may reside.

Donate to the Cause

Your support and donations go directly to our efforts to challenge unjust laws and enables us to take our expertly-crafted legal arguments to the highest level, ensuring this assault on our health freedoms never happens again.
